Part III Notice of Non-Responsive Amendment

1. The reply filed on 8/7/2000 (paper #16) is not fully responsive to the prior Office action because of the following omission(s) or matter(s): claim 73 is a new independent claim and no remarks directed toward the novelty of claim 73 over the prior art of record are evident in paper #16. Though the previously indicated allowable subject matter of claim 3 refers to a digital cross point matrix therein as does claim 73, no such 'open ended' combination of features 'comprising' at least a connection to at least a single processing means which is included to at least help perform the functions so presented as per the combination of claim 3 as indicated allowable, is evident by that which is at least included by the limitations of new claim 73. As such it is not clear if the amendment as presented contains the definite intent of the newly presented claim or reason for considering such novel. However, if such is presented merely inadvertently, then the applicant should have the opportunity to complete the record as intended. See 37 CFR 1.111.

Since the above-mentioned reply appears to be bona fide, applicant is given ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
